WORK EXPERIENCE

Frontend Developer
Creative Design & Multimedia Institute

Ahemdabad,India

Achievements/Tasks

- Built responsive web pages using HTML5, CSS3, and JavaScript • Developed React.js projects with reusable components and routing • Applied Tailwind CSS for responsive layouts and UI consistency • Integrated real-time APIs (like WeatherStack, EmailJS) into projects • Used Git & GitHub for version control and collaborative development

ORGANIZATIONS

Creative Design & Multimedia Institute

Enrolled in a hands-on frontend development program covering HTML, CSS, JavaScript, React.js, Tailwind CSS, Git, and project building.

CERTIFICATES

Frontend Development Certificate –Creative Design & Multimedia Institute (04/2024 - 02/2025)

Learned HTML, CSS, JS, React.js, Tailwind, and GitHub. Built responsive projects and practiced API integration & version control.

PERSONAL PROJECTS

Hospital Management System

- A fully responsive and feature-rich hospital management platform built with ReactJS and Tailwind CSS . This project includes a secure Admin Panel for managing doctors, departments, appointments, and contact messages. The interface is enhanced with AOS animations , real-time form handling via EmailJS , toast notifications, and route-based navigation.

Coffee website

- A stylish and fully responsive coffee brand website built with ReactJS and Tailwind CSS . It features a modern Admin Panel to manage products, categories, and customer messages. Enhanced with smooth UI animations, toast notifications, and clean routing for a seamless user experience.

BharatGPT – AI Sarvam Assistant

- A modern AI-powered Sarvam assistant named BharatGPT , built using ReactJS and Tailwind CSS . It connects to an AI API to provide intelligent skincare recommendations and answers user queries. Includes a sleek, responsive interface with smooth animations and a clean layout.
